IS:link

**Information Systems
Student Exchange Network**

Requirements for joining the IS:link Student Exchange Network

Before you join the IS:link Student Exchange Network we would like to show you a few of the requirements and values we would like our members to have. Our members should:

- confer a dedicated Information Systems degree to students
- offer dedicated Information Systems courses
- offer at least 6 courses per term and at least 4 courses in English
- nominate a designated contact person or unit for IS:link
- support the IS:link application process during exchanges
- allow mobility of students and staff with every member of the network
- respect the basic principles of equal treatment

Furthermore, every member of the IS:link Student Exchange Network needs to be listed and acknowledged on the anabin listing, a German database for university quality assurance.
